

EDWIN PEREZ

Queens, NY | Edwin.Perez@Pursuit.org | linkedin.com/in/edwinbuilds | github.com/edpursuing | edpursuing.github.io

PROFESSIONAL SUMMARY

AI-native software engineer. I build full-stack apps and ship tools that replace manual operational work — most recently a compliance pipeline that cuts bank call reviews from seven hours to ten minutes. Trained at Pursuit with a background in bank operations and licensed NYC contracting. trained at Pursuit with a background in bank operations and licensed NYC contracting

TECHNICAL PROJECTS

- Quorum** | *React 19, TypeScript, FastAPI, Whisper, spaCy, Ollama, PostgreSQL* 2026
- AI call-compliance pipeline for financial institutions — cuts a seven-hour manual review process to ten minutes via transcription, PII redaction, compliance scoring, and coaching feedback. Privacy-first: runs on the bank's own infrastructure by default. Frontend lead, two-person Pursuit capstone. | Code: github.com/edpursuing/Quorum
- Hop In!** | *React 18, TypeScript, Firebase, Cloud Functions, Slack API* 2026
- Ride-coordination web app for fellows commuting to Pursuit's Long Island City HQ — where the nearest subway is a 15-minute walk, the G train runs shuttle buses most nights, and there's nowhere to eat during the one-hour meal breaks. Solo build; Slack sign-in, real-time Firestore board, Cloud Function writes. | Live: pursuit-shuttle.web.app | Code: github.com/edpursuing/Shuttle-Hoppin
- CarbonLens** | *React 18, TypeScript, EPA eGRID, EIA API, jsPDF* 2026
- Digital MRV tool for utility-scale solar — compresses weeks of \$15K–\$50K consultant work into a sub-60-second registry-ready export, using live EPA eGRID and EIA grid-mix data with deterministic math and full audit trail. | Code: github.com/edpursuing/carbonlens

EXPERIENCE

- AI-Native Software Engineering Fellow** | *Pursuit* | *New York, NY* Sep 2025 – Present
- Building Quorum (AI call-compliance capstone) and Hoppin' (ride-coordination platform for fellows) — product definition through deployment — alongside additional team projects throughout the fellowship.
- Co-Founder & Operations Manager** | *Assembly for Poets* | *New York, NY* Jan 2023 – Present
- Built a document automation system (proposals, co-op board submissions, management correspondence) that cut hours of paperwork per job to minutes.
 - Founded and licensed a NYC home-improvement contractor under DOB regulations; manage client pipeline, subcontractor coordination, and board-approval processes across residential co-ops.
- Universal Banker** | *Metropolitan Commercial Bank* | *New York, NY* Jun 2022 – Feb 2023
- Managed account operations for consumer, corporate, and municipal clients
 - Built an Excel + Outlook dashboard that pulled client requests from the team inbox into one shared queue for four bankers
- Concierge Banker** | *Citibank, N.A.* | *New York, NY* Aug 2021 – Jun 2022
- Grew deposit and credit-product relationships in the Manhattan Square Division; achieved #1 national ranking among Citi concierge bankers and President's Club recognition.
 - Observed managers spending full days reviewing sales calls by hand — the manual process Quorum (Pursuit capstone) was later built to automate.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML/CSS

Frameworks: React, Next.js, Node.js, Express, FastAPI, Vite, Tailwind CSS

Data & Infra: PostgreSQL, Supabase, Firebase, Firestore, Cloud Functions, REST APIs

AI & Tools: Claude, Claude Code, ChatGPT, OpenAI API, Whisper, Ollama, spaCy, Git/GitHub

Other: Microsoft Excel, Salesforce | Bilingual: English & Spanish

EDUCATION

- Pursuit** | *AI-Native Software Engineering Fellowship* | *New York, NY* Sep 2025 – Present
- Hunter College** | *English Literature (in progress)* New York, NY
